Lab 5: Static Code Analysis Results

Project: employee_payroll_system.py
Repository: https://github.com/VINYAS10/L5_44_employee_payroll_system
Tools used: Pylint, Bandit, and Flake8

Tool	Final result
Pylint	10.00/10
Bandit	No issues identified
Flake8	No violations reported (empty report)

1. Pylint output

```
-----------------------------------
Your code has been rated at 10.00/10
```

2. Bandit output

```
Test results:
        No issues identified.

Code scanned:
        Total lines of code: 70
        Total lines skipped (#nosec): 0
        Total potential issues skipped due to specifically being disabled: 0

Run metrics — Total issues by severity:
        Undefined: 0
        Low: 0
        Medium: 0
        High: 0

Files skipped (0):
```

3. Flake8 output

```
(No output)
Interpretation: Flake8 completed successfully and reported no style violations.
```

These results were reported after running the tools against the revised employee_payroll_system.py file. Pylint returned 10.00/10, Bandit identified no issues, and Flake8 produced an empty report.
